

# CERTIFICATE OF COMPLIANCE

---

## Certificate of Compliance to California Proposition 65 Safe Drinking Water and Toxic Enforcement Act of 1986

California Proposition 65 (officially titled the Safe Drinking Water and Toxic Enforcement Act of 1986, codified at California Health & Safety Code §§ 25249.5 - .13) is a California law that regulates the use of toxic and carcinogenic substances. Under the law, the State of California maintains a list of regulated substances, and if any consumer product contains a listed substance at regulated levels, the product must bear a warning to that effect. The list is updated several times per year.

RCD acknowledges comprehension with the requirements under California Proposition 65, including the expanded California Proposition 65 warning regulations, effective as of August 30, 2018.

Based upon RCD's current level of knowledge of our business operations and the scope of chemicals used therein, NO SUBSTANCES on the California Proposition 65 list have been knowingly or intentionally added within any of our manufactured products, in their final form, affording them complete compliance to, and negating the requirements of warning labels for, California Proposition 65.

Should future manufactured products not comply with California Proposition 65, RCD will inform its customers of these changes, related to these compliance issues, in due course and with all necessary diligence.

The current and latest Proposition 65 List can be found at the following website:
